

DOUBLE PAN WEIGHING SCALE

'eltek' Double Pan Weighing Scale is designed to provide accurate weighing of blood bag carrier/bucket prior to centrifugation in order to avoid imbalanced centrifugation operation. The actual weight of the contents is displayed in real time and can be adjusted simultaneously by adding or removing weights. The differential weight in grams is also displayed at the same time. Double Weighing Scale increases the productivity in blood banks by reducing the time required during balancing before components separation process in blood bank centrifuge.

Salient Features :

- › Polycarbonate body.
- › LCD jumbo display.
- › Auto calibration.
- › Stainless steel top pan.
- › External power supply.

Technical Specifications :

MODEL NO.	WS-2D
Dimension in mm (W x D x H)	300 x 375 x 120
Weight	5 kg
Display	LCD 16 x 2 Junito
Feet	Adjustable
Accuracy	± 1gm
Transducer	Load Cell
Stainless Steel Pan dimension	130mm x 250mm x 2
Capacity	Upto 3000gm (3 kg)
Power Supply	12 VDC Adaptor
